

Grid

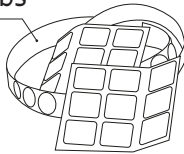

A box of things for creating interactive grids anywhere.

Use tapes, stickers and magnets to create interactive structures for gathering responses using any surface indoor or out - metal, glass, walls or even the floor.

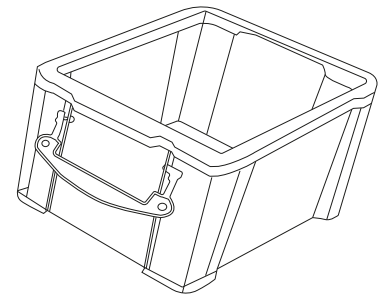

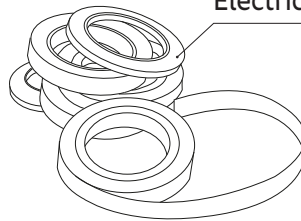

- Quickly create a grid matched both to the space available and the responses you want to gather.
- Attract the right level of attention by working in a place and at a scale right for the job.
- Make responses as open or closed as you want; use stickers or counters from the Grid box, or have respondents make their own.

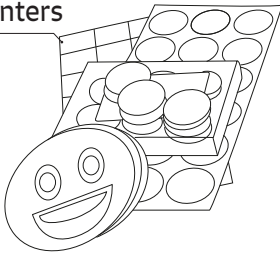

Velcro Tabs

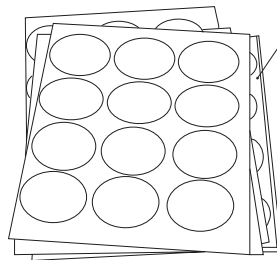

Magnetic and Electrical tape

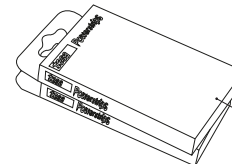

Magnetic Counters

Assorted colour stickers

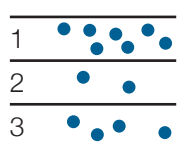

Wall-friendly adhesive strips

Download artwork from the Leapfrog.tools Grid page to print more copies of grid stickers, (see overleaf) emoticons and clock faces.

Example Uses...

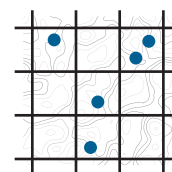

Simple Voting

The stickers or magnets make a great way to collect votes in a highly visible way.

	A	B	C
1	😊		
2		😞	😞
3		😊😊	

Emoticon Matrix

Use emotion stickers to capture people's responses to ideas or variations on a theme.

Idea Maps

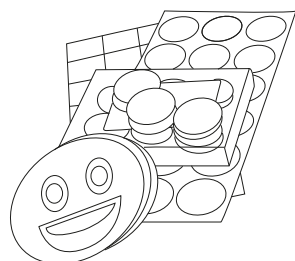

Place the grid over a photograph or map to collect how responses to different parts of a space.
