

SNAPSHOT + STORY

Create a quick overview of engagement work to share with others in your organisation

3 PARTS

This tool has three sections for a clearer understanding of the story that you want to tell

TIP
Would you like to share and get feedback from your story? Why not to try the Feedback Cycle Request tool at www.leapfrog.tools

SNAPSHOT

Use just a few words to give a catchy headline and invite people to read the full story. Add a subtitle with a few more key details, for example, where the story happened, who was involved, etc...

STORY

Here you can provide further detail and include a photograph, image or video. You might also describe engagement work you have planned/completed that can support improvement to your service.

Some tips:

- Provide a context
- Offer some conclusions or recommendations to draw out the meaning of this story

Use a picture or video that illustrates story. This will help people see the reality of your story.

OUTCOME MEASURES

For some people, such as managers, outcome measures are important. Use this section to point to the strategic outcomes or contractual measures relevant to this work. Use for example, the CQC Framework, Key Performance Indicators (KPIs) or any other type of measurement.

SHARE IT!

Promote the completed tool to service users and managers, or include in reporting to provide a quick overview.

SUGGESTIONS FOR USE

- Use this in meetings to update on what is going on in services
- Quickly scribble your evidences and capture visual and quick feedback from individuals in a group
- Complete the tool electronically and dshare your evidence

This tool was co-designed with young patients and staff from the Blackpool Teaching Hospitals NHS Foundation Trust, Lancashire Care NHS foundation Trust, and Lancashire Children's champions
