

# Sea of Trust

**This tool is good for** thinking about an issue from different perspectives.

Each area illustrates different perspectives of an issue. Ask people to share their feelings in each of these areas.

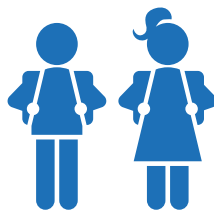

**It is confidential**  
Paste the stickers inside of each area to keep messages confidential.

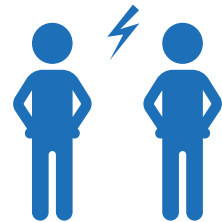

## Suggestions for use

Capturing sensitive issues from people who are not confident to talk about them.

To engage a young person or group of young people in talking about problems at school.

For conflict resolution for example, between a family and Social services or parents and the Parent Teacher Association.
